#### Materials:

- Seasonal printed paper
- Scissors
- Star template
- Glue stick
- Cardboard
- Jumbo craft stick
- Hot glue gun

1. Print the star template on the back of your seasonal paper. You can also print out the star and use it to trace on the back of the paper. This would be your best option if you want the pattern of your paper placed a certain way.
2. Using the glue stick, glue the cut-out star onto a piece of cardboard. This is a great use of upcycled materials – cereal or snack boxes work great!
3. Cut out the star on the cardboard.
4. Use a hot glue gun to attach the jumbo craft stick to the back of the fan.
